PLANT NEWS UPDATE

The workplace is currently operating on a two shift operation with the exception of the 3000 Ton press and the mig techs who are on three shifts. There have been several layoffs and then recalls as the Company tries to balance the manpower with the production requirements. The last number currently working in Windsor is 24290. The company expects that they will be returning to a three shift operation on October 26th. We are trying to arrange for a shift pick the week before this transpires.

THIS ADJUSTMENT COMMITTEE IS MADE POSSIBLE THROUGH FUNDING FROM THE PROVINCE OF ONTARIO
